PROOF OF PURCHASE REQUIREMENTS

While you may install some of the products yourself, some should be installed using a licensed contractor. The proof of purchase and other documentation required to process your rebate application may differ depending on who completes the installation. All products must be installed prior to submitting your completed forms and other required documentation.

The following may be used as Proof of Purchase – **Home Improvement Contract (HIC) and/or paid invoice/receipts**. The California State License Board (CSLB) requires that licensed contractors provide you with a HIC if the materials and labor total for the product(s) and installation is \$500 or more. It is recommended that you request a HIC from your contractor even if the contractor installation was less than \$500. If an HIC is your proof of purchase, it must be the original given to you by your contractor and must be signed and dated by both you and your licensed contractor. If the signatures are not dated, the date that the HIC was written will determine the product purchase date.

Proof of Purchase must include at least the following information:

1. Retailer/Contractor name, business address and phone.
2. Itemized description of each product, including such information as:
 - a. Manufacturer, product make and model number(s), and other identifying information.
 - b. Insulation level (i.e. R-30), square footage.
 - c. Energy Factor (EF) for natural gas water heaters.
 - d. AFUE for natural gas furnace.
3. Purchase price per product, payment terms, or “Paid in Full” notation with date.
4. Product installation date, unless self-installed.
5. C.O.D. (cash on delivery) will be accepted as proof of purchase provided C.O.D. invoice is accompanied by a delivery receipt, or an install date is noted on the invoice.

Read the Product Form included in this application to make sure your installed product meets the qualification requirements of the program.

For additional information on Home Improvement Contracts or the status of your contractor's license, visit www.cslb.ca.gov or call the Contractors State License Board at 1-800-321-CSLB.

Measures receiving the SoCalGas rebate, instantly, at the point-of-sale, do not qualify for a mail-in rebate.

All clothes washers and dishwashers must be installed with a water heating source using natural gas distributed to the installation address by SoCalGas. The ENERGY STAR label is your assurance of energy-efficiency performance that exceeds federal standards. When used properly, ENERGY STAR-qualified products use less energy than standard equipment, they cost less to operate, and create less pollution. You're also cutting your monthly energy use. Many manufacturers offer ENERGY STAR-qualified products. Just look for the label. For product retailer listings, visit www.energystar.gov.

Additional rebates from other utilities: Your local electric and water utilities may also offer energy-efficiency rebates. In some cases, they may be combined with rebates from The Gas Company for even greater savings.
